Effectively kills 99.9% of bacteria, pathogens & inactivates viruses

Germicidal UV disinfection enhances conventional cleaning methods to ensure that whatever pathogens are not “killed” by chemicals and cleaning solutions are deactivated by another (UVC light). In this way our convenient, portable sanitation carts will improve your existing cleaning protocols and offer piece-of-mind to your students, parents, staff, clients, and visitors.

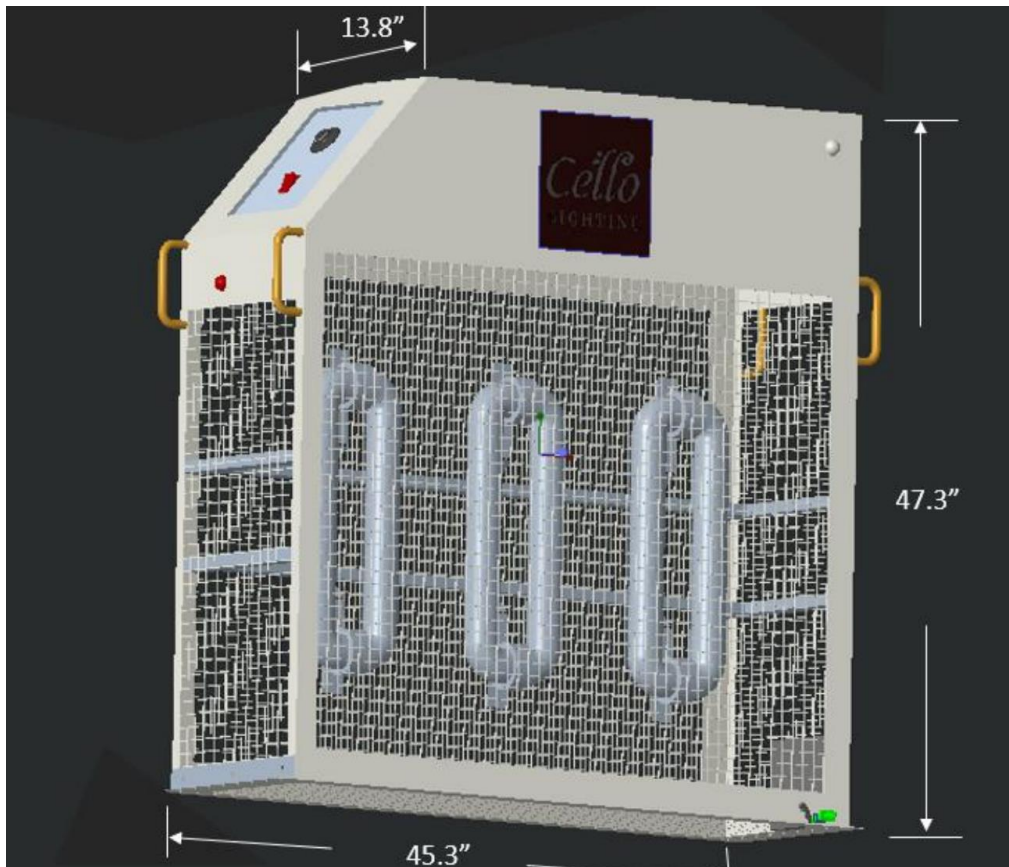

Our Portable 1000-watt Air Only GUV Disinfection Cart includes the following:

- Remote control to control on/off switching
- Free mobile app for controlling on/off switching and monitoring work-log activity and location
- 3-year manufacturer’s warranty on parts and lamps
- Rated lamp life is 100,000 hours
