

## Germicidal Disinfection for Business

300-watt Portable Induction UVC Air Sanitation Cart

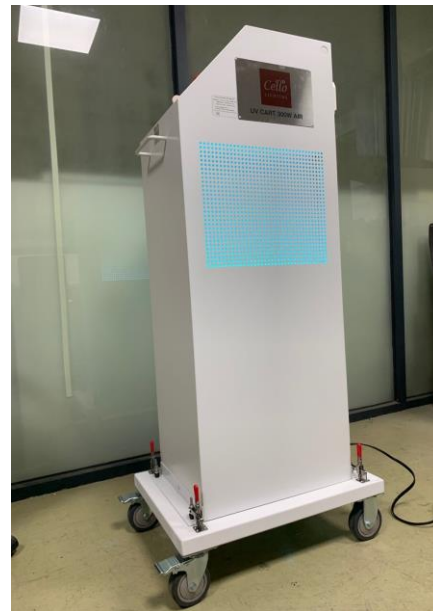

### Portable 300-watt Air Only Disinfection

Effectively Disinfects Room Air & is Safe to Operate in Occupied Spaces

Enhance cleaning procedures & stop the spread of germs & viruses

- Offices, Bathrooms & Common Areas
- Schools & Daycare
- Medical & Dental Offices
- Nursing Homes & Eldercare Facilities
- Restaurants & Commercial Kitchens
- Food Processing Facilities
- Gymnasiums & Fitness Centers
- Hotels & Hospitality Facilities
- Hospitals & Urgent Care Clinics
- Locker Rooms

Includes remote control

**Effectively kills 99.9% of bacteria, pathogens & inactivates viruses**

*Germicidal UV disinfection enhances conventional cleaning methods to ensure that whatever pathogens are not “killed” by chemicals and cleaning solutions are deactivated by another (UVC light). In this way our convenient, portable sanitation carts will improve your existing cleaning protocols and offer piece-of-mind to your students, parents, staff, clients, and visitors.*

**Our Portable 300-watt Air Only GUV Disinfection Cart includes the following:**

- Remote control to control on/off switching
- Free mobile app for controlling on/off switching and monitoring work-log activity and location
- 3-year manufacturer’s warranty on parts and lamps
- Rated lamp life is 100,000 hours

## Product Features

1. Powerful UV intensity of 1335  $\mu\text{W}/\text{cm}^2$ . Exchange air of 1500 sq. ft. and 8 ft. high room within 60 minutes.
2. Operating with low ambient noise of 50dB.
3. Wifi enabled for 4G/LTE IoT communication.
4. Proprietary APP able to track location of UV operation.
5. Embedded WiFi smart switch to control and monitor UV lamps with smartphone App through internet connection.
6. Electrodeless fluorescent bulbs with 3 times of UV efficacy over regular UV lamps.
7. Timer and **remote-control** CELLO UV Cart 300W AIR allows you to set up 0-60 minutes timer.
8. Smartphone App remote control for you to turn on or off remotely anywhere anytime.
9. Work Log with timing and location information.

## 300-watt UVC Air Disinfection Germicidal Ultraviolet Lighting Sanitation Cart

Input power:	300 watts
Wavelength:	253.7nm
Type of ultraviolet lamp:	induction UV light
Dimensions*:	15.8" L x 13.8" W x 59.3" H
Air exchange rate (ACH):	200-1000 CFM (tunable)
Input voltage:	120-277 volt, 47Hz – 60Hz
Ambient noise:	50 db
Total UV irradiation intensity:	1335 uW/cm <sup>2</sup>

Includes (1) 300-watt UV germicidal induction lamp with total 1,300 u W/cm<sup>2</sup>

\*Actual dimensions and unit design subject to change.

**We also carry a 1000-watt Air Disinfection Cart to  
disinfect rooms up to 8,000 sq. ft. in as little as 80 minutes**
